RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

In response to the restriction requirement set forth in the Office Action mailed April 7, 2003 (Paper No. 2), applicant hereby elects claims 7-37 for continued examination, without traverse.

The Examiner has required restriction between claims 1-6, identified as Group I being directed toward frequency/band selection, and claims 7-37, identified as Group II being directed toward phase locked looping. In requiring restriction between the claims of Groups I and II, the Examiner asserts that these groups are related as combination and subcombination. It appears from the above that the Examiner is relying upon the claims of Group I as reciting a subcombination and the claims of Group II as reciting a combination. Applicant has elected the claims of the combination of Group II for further prosecution.
